Used Empty Bottle Inspector 1995 HEUFT - Model HBBEBM348

Manufacturer:	Heuft	Side wall lightning:	Strobe lamps
Model:	HBBEBM348	Additional equipment:	Operating via Screen and Pen
Condition:	used	Serial number:	95G000767
Year:	1995	Price:	26 500 EUR
Performance:	Specifications: 72,000 b/h Used for: 35,000 b/h	Description: The SPECTRUM inspector has been designed for the inspection of two types of bottle containers (330ml, 630ml) The following container faults can be detected: 1) Opaque and transparent contaminations of the bottle container base. 2) Damaged or dirty container finish. 3) Contaminations of inner and outer sidewalls, as well as foreign objects. 4) Remaining caustic solution and oil. (HF and Infrared) 5) Scuffing Detection with side wall camera 6) Infeed bottle check. The SPECTRUM inspector controls the rejection of dirty or faulty containers as well as foreign bottles at the infeed.	
Voltage:	230V		
Delivery:	From our premises, after 14/5/18		
Available for in-line review:	Until 4/5/18 (contact us for video call or video file)		
Direction:	L-R		
Modules:	bottom, neck finish, thread, caustic, oil, side wall		
Frequency:	50/60Hz		
Rejection:	Foreign bottle rejection on machine infeed and rejection of Faulty bottle		
Control cabinet:	On machine with Cooling Fans		
Control voltage:	24 V DC
